

3 Key Drivers

1.  Central to the PM's vision of a reformed, competitive Europe.

2.  Worth up to: **£10bn** to the UK
 **£80bn** to the US and
 **£100bn** to the EU, per year.

3.  Safeguarding liberal trade rules for the 21st century through EU-US leadership on trade policy, including developing new global standards.

Did you know?

- US tariffs on UK goods include sportswear (32%), synthetic women's coats (16%), hotel tableware (28%) and slippers (26%).
- The US "Bars and Grills" Intellectual Property rule means musicians aren't rewarded when their music plays in many US outlets.
- Many UK qualifications like those from the Royal Institute of British Architects aren't recognised by the US.
