David Cameron's visit to Broxtowe today

Friday June 20 2014

PM announces £2.7 million to fix our potholes

David Cameron visited Kimberley today and announced Notts is to receive £2.7 million to repair potholes throughout the county.

The PM met a group of residents from throughout Broxtowe to talk about the problem of potholes, HS2 and how we are fighting to save our Green Belt.

Kimberley comes to a standstill as PM gets a pot hole tour

Former Kimberley Town Council leader, Roy Plumb took David Cameron down Victoria Street to show him some of the worst pot holes.

Roy has done a tour of the town centre identifying over a dozen roads in need of urgent attention. Kimberley residents, Shane Easom, Janet and Gilbert Hughes all also added their concerns about the pot hole problem in the Kimberley area.

Meeting tells PM of support for HS2 at Toton Sidings and opposition to plans to build thousands of houses on our Green Belt

The PM met community champions from Stapleford, Toton, and Bramcote. Mia Key and Michelle Patel left the PM in no doubt that the Borough Council's plans for thousands of houses near Toton Sidings would stifle the economic growth we all want from HS2.

Stapleford community champion Richard MacRae explained how brown field sites were not being put forward for development but Green belt sites like Field Farm are the Council's priority for development.

Steve Austin, one of the Editors of Bramcote Today, also joined the discussion

Rumbletums Rules!

I booked Rumbletums meeting room in great secrecy so they had no idea the PM was coming. Grateful thanks to Jeff Buck and his wonderful team of workers who had to put up with all the press and security yet still managed to serve excellent tea, coffee and cakes to their lunchtime customers!

What's on in Broxtowe this weekend and surgery details
